

Company: DR Gaming Technology (DRGT™) is the world's fastest growing independent global supplier of integrated, scalable casino management and jackpot system solutions. They develop advanced systems using the latest technology, giving operators the unique ability to operate without a server.

Event: G2E – Las Vegas, Nevada

Experience: To provide the perfect platform to engage primarily with the Mexican, Latin American and Caribbean customers. That said, the truly global appeal of the G2E Global Gaming Expo, and Las Vegas itself, affords an audience with operators from all four corners of the globe, and the ideal stage to showcase a full jackpot, management systems and marketing technology product bouquet.

Result: The reception from show visitors to date remains ever positive and talks to market demand for cost-effective and reliable solutions that do what they say. Consumers in general are getting more and more spoiled for choice, and DR Gaming Technology are meeting these needs, and in many cases driving them.
